CONSOLIDATED AGENCY CHANGE

Is Rumored Bdt Pine Controllers Will Not Talk

The report was general on the street this morning that the agency of the Consolidated Pineapple Company was to pass from Castle & Cooke to the Hawaii Development Company, of which Jas. B. Castle is the ruling spirit.

When this was brought to Mr. Castle's attention he denied the yarn in detail and in general. There is absolutely no truth in it. George Thiel, who is understood to represent the controlling stock of the corporation, refused to talk, allowing the whole matter to rest with Mr. Castle's denial.

At Castle & Cooke's office the statement was made that there were negotiations for a change of the agency, but nothing definite had occurred. The Consolidated Company is one of the largest pineapple propositions in the islands.

LUCAS WINS TAX CASE IN SUPREME COURT

In an opinion handed down this morning in the case of Charles T. Willard, Assessor and Collector of Taxes, versus W. T. Lucas, the Supreme Court makes the interpretation of Section 16, Act 89, S. L. 1905, that it "does not extend the duration of tax liens which had attached prior to the date that the act took effect."

The matter was submitted upon an agreed statement of facts from which it appears that the defendant in September, 1908, became the purchaser at foreclosure sale of real-estate mortgaged in 1898, upon which the taxes for the year 1905 are still unpaid. The plaintiff contended that the property was subject to a lien for the taxes of that year superior to the prior mortgage. The Supreme Court failed to agree with him in that contention.

THE ART THEATRE

"The Animated Doll" at the Art Theatre is one of the best films that has been seen here. "The Mountain-er's Son" and "In the Shadow of the Law" are both interesting films. Good care is taken in selecting views and the popularity of this theatre is still at its height.

WM. D. STOCKMAN,
Section Director, U. S. Weather Bureau

big fight of the session is going to develop over the special income tax bill. I do not think that it can become a law.

Representative Affonso has several bills which he expects to introduce into the House during the session. Three of them he outlined this morning. One is to divide the County of Hawaii into two Senatorial districts. This is an old question that has been once discussed. A bill to the same effect passed the House at the last session, but was lost in the Senate by one vote. Representative Affonso hopes that it will meet a better fate this session. His idea is to have the first district include Puna, North and South Hilo and Hamakua; the second Senatorial district to take in Kau, Niihau and South Kona and North and South Kohala.

A second bill which Mr. Affonso will introduce provides for the creation of the office of County Recorder. This is in accordance with the system in vogue in the States, and the Representative who stands sponsor for the measure thinks that there is no reason why these new offices should not be created. Of course, this would provide a nice lot of pleasant offices to be filled by the patriotic voters and the measure should prove at least a popular one.

Representative Affonso will also introduce a bill to amend the County Act by fixing the salary of county clerks at \$150 per month instead of \$100, as at present. This also is certain of receiving the enthusiastic support of a certain contingent in the Legislature. What the Governor will do if the bill passes and reaches him may possibly cause some worry to him.

on for purposes of prostitution. I would call your attention to the importance of the law of which this is a violation. Where individuals or companies take up such an enterprise for the sake of profit, it is an attack not only upon the marriage status but also against the honorable status of women, as the practice of prostitution, whether individually or under the management of others, is hostile to that idea of chastity which is the basis of the family in civilized countries.
